## SUMMARY

Informatics Engineering student specializing in Machine Learning and Data Analytics with experience in Python, SQL, Pandas, scikit-learn, and TensorFlow. Complemented by a background in web and mobile development using Next.js and React.js, as well as UI/UX design with Figma and Adobe tools, bringing a well-rounded perspective to data-driven solutions.

## WORK EXPERIENCE

**Social Media Intern – Kompas Gramedia Radio Network** **Jul 2023 - Sep 2023**

- Produced engaging social media reels, posts, and captions for SmartFM while assisting live video shoots and teleprompter operations for seamless delivery.

## SELECTED PROJECTS

**Machine Learning Project — Candidate Confidence Classification** **Jun 2026**

- Developed a facial expression pipeline using 2,366 images to classify interview confidence, achieving 74.18% accuracy and 40x faster training efficiency.

**Inventix Stock & Inventory Management Web App** **Mar 2026 - Jun 2026**

Frontend Developer & UI Designer | Next.js, TypeScript, Tailwind CSS, PostgreSQL

- Led frontend and UI development for a multi-business inventory app (partnered with local café FOMO), delivering core features for stock/supplier management, expense reports, and automated low-stock/expiry alerts.

**Azzura Rewards Customer Loyalty Mobile App** **Oct 2025 - Dec 2025**

Frontend Developer & UI/UX Designer | Flutter, Dart, Provider

- Co-developed the frontend and UI/UX for a loyalty mobile app using Flutter, Dart, and Provider, implementing real-time profile management, daily check-in streaks, and gamified reward mechanics.

**Notte Azzura Pizza Restaurant Website** **Nov 2025 - Dec 2025**

Frontend Developer & UI/UX Designer | Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL

- Co-developed a responsive restaurant web app with Next.js and TypeScript, building 5 key informational pages equipped with custom landing animations and interactive hover states.

## EDUCATION

**Undergraduate Student in Informatics Engineering** **Aug 2024 - Present**

Universitas Tarumanagara – Jakarta, Indonesia

- GPA: 3.93 / 4.00

## SKILLS

- Language: Indonesian (Native) | English (Professional Working)
- Programming Language: Python, TypeScript, JavaScript, Dart, SQL, HTML/CSS
- Tech Stack: TensorFlow, Pandas, NumPy, Scikit-Learn, OpenCV, Next.js, React.js, Flutter, Tailwind CSS, PostgreSQL, Provider, Figma, Adobe Tools, Canva
- Soft Skills: Time Management, Teamwork, Analytical Thinking, Adaptability, Communication
